EXPERTISE & SKILLS

`MACHINE LEARNING` `DATA VISUALISATION` `EXPLORATORY DATA ANALYSIS` `CRITICAL THINKING`
`FAST LEARNER`

PROGRAMMING PROFICIENCY

`R  2 YEARS`   `PYTHON  1 YEAR`   `JULIA  < 1 YEAR`

WORK EXPERIENCE

DATA ANALYST

02/2017 - 10/2017   📍 **Hangzhou, CHN**

I researched, designed, Bioequivalence test for **Tiankun** Pharmaceutical Technology (Hangzhou) Co., Ltd.

- Mainly used Phoenix WinNonlin to do data analysis of BE projects and wrote analysis reports.
- Served as a computer system administrator, and verified Watson LIMS (laboratory information management system).

EDUCATION

Master of Science in Applied Statistics
Ocean University of China (2018-Now)

Bachelor of Economics in Actuarial Science
Henan University of Economics and Law (2012-2016)

INTERESTS

Statistics is a science of producing information. Extract useful information from vast amounts of data and visualize its results to people are two of the main challenges that drive me. I enjoy analyzing data and visualizing results.

In my free time, I enjoy hiking, climbing, swimming, and hosting friends for dinner.
